NEWS RELEASE: ACQUISITION in INDIANA

Omni Management, LLC (dba Medical Incorporated, dba Omni Scientific) is excited to announce our most recent acquisition of **Sizemore Service, Inc** located in Indianapolis, IN. Although Omni Scientific Equipment Services has had a presence in the Midwest region for several years, we officially began operations in Indianapolis and the surrounding region on January 1st, 2022. Don Sizemore and his team have invested over 30-years maintaining life science equipment in this area, and have agreed to work with Omni for the foreseeable future to ensure that the many clients in the region experience a seamless transition.

We have had a transition team on the ground in Indianapolis for the past few months working with the manufacturer reps and clients, and we are pleased that our team has been well received. We anticipate tremendous growth in this Midwest region in the coming years. We look forward to growing the excellent relationships that Don Sizemore has cultivated with the many manufacturers, reps and customers over the years.

Brandon Johnson, a 19-year veteran with Omni Management, LLC, has taken the Indianapolis Branch Manager position and will reside in the Indianapolis area.
